NOTES FOR GUIDANCE FOR COMPLETION OF TP4

1. Age retirement benefits are payable at the following normal pension ages or the day after cessation of all pensionable employment (whichever is later). If you were in pensionable service prior to 1 April 2007, your Normal Pension Age (NPA) is 60. If you entered pensionable service for the first time on or after 1 April 2007, your NPA is 65. If you return to pensionable service after a break of more than 5 years, your NPA will still be 60 in respect of your earlier service, but will be 65 for your future service. However, if you have entered the Career Average Scheme (CARE) then your NPA is linked to your State Pension Age.
2. Premature retirement benefits may be payable if you are aged 55 or over. Your employer must certify that your teaching employment has come to an end because of redundancy, in the interest of efficient discharge of the employer's function, or through the Investing in Teaching Workforce Scheme.
3. Premature retirement benefits are not payable if you are currently applying for or are in receipt of ill-health benefits.
4. For members who are in multiple employments all employments must cease before benefits can be paid.
5. Entitlement to retirement benefits is dependent upon the age of the member. As part of the application process, Teachers' Pensions Branch must verify that a member's age is correct as given on the application form therefore when returning your form to the Branch you should enclose your birth certificate (this will be copied in the Branch and the original will be returned to you recorded delivery).
6. To qualify for retirement benefits under the Teachers' Pensions Regulations you will need 2 years pensionable employment completed after 6 April 1988 or 5 years pensionable employment at any time.

7. If you were a member of the scheme before 1 April 2007 the method of calculating benefits, which will consist of an annual pension and a lump sum based on reckonable service and average salary, is as follows:

$$\text{Pension} = \frac{\text{Service} \times \text{Average Salary}}{80}$$

The lump sum is 3 times the pension.

If you become a member of the scheme on or after 1 April 2007 your benefits will consist of an annual pension based on reckonable service and average salary. It will be:

$$\text{Pension} = \frac{\text{Service} \times \text{Average Salary}}{60}$$

If you are a member of the Career Average Scheme your benefits will consist on an annual pension based on your Career Average earnings after increases have been applied. It will be calculated as follows:

$$\text{Pension} = \frac{\text{Career Average earnings (after increases)}}{57}$$

Under the Pensions (Increase) Acts pensions are increased automatically in April each year, to maintain the link with movements in the cost of living.

8. If you were a member of the scheme before 1 April 2007 you can convert, 'commute', part of your pension to receive a lump sum up to 25% of your fund value. However to avail of this option members must also have pensionable service on or after 1 April 2007. The formula for calculating the maximum amount of lump sum that can be paid is as follows:

$$\frac{(\text{Pension} \times 20) + (\text{lump sum} \times 20/12)}{4.667}$$

If you joined the scheme on or after 1 April 2007 the formula for calculating the maximum amount of lump sum benefits that

can be paid is as follows:

$$\frac{\text{Pension} \times 20}{4.667^*}$$

The resulting figure represents 25% of the fund value and is the maximum lump sum you may take. To determine the additional lump sum you may have you must deduct your actual lump sum from this figure. For each £1 of pension commuted there will be £12 of lump sum paid.

9. If you are intending to use 30% or more to increase your pension benefits, this could result in HMRC subjecting the whole of your lump sum to an unauthorized payment tax charge of 40% and a further 15% surcharge if the value of unauthorized payments exceeds 25% of your rights in the scheme.

This recycling rule will not affect you if your lump sum does not exceed 1% of the Lifetime Allowance which is explained in note 24.

10. The average salary is the salary used to calculate your benefits when you retire. The way it is calculated depends on when you retire.

If you left service before 1 April 2007 it is the highest amount of full salary for any consecutive 365 days of reckonable service, whether continuous or not, during the last 3 years of reckonable service.

- the highest amount of full salary for any consecutive 365 days of reckonable service, whether continuous or not, during the last 3 years of reckonable service; or
 - the salaries for the last 10 calendar years are increased using the Consumer Price Index (CPI). The average of the best consecutive 3 years' re-valued salaries in those 10 calendar years is used; or
 - the pensionable salary received in the last 12 months before the date of retirement.
11. Salary restriction- the salary used to calculate your retirement benefits may be restricted if your salary is increased more

than 10% plus the standard increase during any financial year in your last 3 years of pensionable employment before retirement and your last year's salary is used as the average salary. If your employer is not prepared to meet the cost of the difference your benefits will be restricted. If your employer pays the additional contributions, you will receive benefits calculated on the unrestricted salary. NB: An election to commute part of your pension to a lump sum is irrevocable after benefits are put into payment.

12. A maximum of 45 years of reckonable service is allowed in the calculation of pension and lump sum. Reckonable service includes all full-time pensionable service, any part time service, any additional service bought in under the PAY and CAY arrangements and any transferred-in service.
13. If you are already paying for past added years or additional family benefits (and payments will not be completed by retirement) you will be given the option of accepting the service credit based on the payments made or paying the remaining contributions. Any other outstanding contributions at retirement may be deducted from your lump sum.
14. A pension is payable in the event of a member's death, provided the member was married, in a civil partnership or has nominated a partner and has sufficient family benefits service to qualify. Details of dependency will be confirmed before a nominated partner's pension is paid.
15. In addition, children's pensions are payable up to the age of 17. These will only be paid after the age of 17 if they continue to receive full-time education or training and are not married and are under age 23.
16. A potential spouse's, civil partner's or nominated partner's pension is 1/160th of the member's average salary for each year of family benefit service. The basis of the calculation is as follows:

$$\frac{\text{Family benefits Service} \times \text{Average Salary}}{160}$$

For members of the Career Average Scheme (CARE) this pension is calculated as follows:

Deceased Member's CARE pension at Date of Death x 37.5%

Pensions increase is applied at the same rate as the member's pension.

17. An amount equal to one half of the adult dependant's pension is payable for one child. Two or more children will receive equal to the adult's pension, which will be divided equally among them.
18. Where a member dies after payment of retirement benefits a supplementary death grant (SDG) may be payable. Further information can be obtained by contacting Teachers' Pensions Branch directly.
19. Modification is a reduction of £1.70 for each year of service prior to 31 March 1980 because of National Insurance provisions. This modified pension rate comes into effect when the state pension becomes payable.
20. If you have an earmarking or pension sharing order or agreement, made by a court, against part of your pension entitlement, your retirement benefits will be reduced accordingly.
21. Lifetime Allowance – The Finance Act 2004 introduced a single tax regime that applies to all UK tax privileged pensions from 6 April 2006. This new regime introduced a "Lifetime Allowance", which is the total allowable value of benefits (both pension and lump sum) from all registered pension schemes. This excludes pensions payable from the state. The Lifetime Allowance (LTA) is set at the following level for the current tax year is £1,000,000.

Further information is available at <https://www.gov.uk/government/organizations/hm-revenue-customs/contact>

To assess whether you are affected the following formula should be applied to your benefits:

$$\frac{(\text{Annual pension} \times 20) + \text{lump sum}}{\text{Lifetime Allowance}} \times 100 = \text{LTA}\%$$

If the percentage exceeds 100% you will be liable for the LTA charge unless you have a transitional protection certificate.

If your benefits from all registered pension

schemes currently in payment and your teacher's pension which is coming in to payment is less than £50,000 per annum, please tick 'No' box. If your benefits in payment and about to come into payment on the same date as your teacher's pension exceed £50,000 per annum, please tick the 'Yes' box.

If a LTA charge is due, the Teachers' Pensions Branch will account for this by reducing your benefits.

22. For further information about the Teachers' Pensions Scheme you can visit the website, <https://www.education-ni.gov.uk/>
23. Please ensure that you have completed all relevant parts of the form before signing the declaration. Without your signature and the date, the application is invalid and we cannot proceed with your claim.
24. **Data Protection Act 1998** – The Department for Education will use any information you provide in connection with the Northern Ireland Teachers' Pension Scheme for the purpose of administering and operating the scheme and paying benefits under it. This may include passing details to third parties that are involved in the administration and operation of the scheme. The Department may also use your data for administrative purposes in line with its data protection notification. In order to fulfil its duty to protect public funds, the Department of Education may use information it holds to prevent and detect fraud. The Department may also share such information, for the same purpose, with other organizations that handle public funds.
25. **Where there is any difference between the legislation governing the Northern Ireland Teachers' Pensions Scheme and the information in these notes, the legislation will apply.**
